

Restaurant POS Solution

Delivers a Quick, Dependable Return on Your Investment

The VMS Restaurant POS Solution is the all-in-one point-of-sale system that lets you manage every aspect of your restaurant for profit-building accuracy and efficiency.

Designed specifically for small and independently owned restaurants, its low initial cost and money-saving benefits mean the VMS Restaurant Solution can more than pay for itself in just a few months—and keep paying you for years to come.

The VMS Restaurant Solution helps you save by cutting the time your servers and managers spend on administrative tasks. It helps you improve guest-check accuracy and reduce loss. And it helps boost sales by promoting special items at the table.

Here's How You Could Save Thousands per Year

Here are examples of just three of the ways VMS's Restaurant Solution could save time and money for a small restaurant:

- Four servers per shift
- Two shifts a day
- Six days a week

That equals 48 shifts a week, 192 shifts a month.

How Much Could You Save?

The worksheet on the back of this page will help you see how much your restaurant can save with the VMS Restaurant Solution.

End-of-Shift Server Reporting – Save \$256 per Month

The VMS Restaurant POS Solution tracks all sales, including a breakdown of payment types, and calculates each server's bank. Servers print their reports and settle with the house in minutes.

The Old Way	With VMS Restaurant Solution	Savings
30 mins. per server/shift	10 mins. per server/shift	20 mins./server/shift x 192 shifts/month <hr/> 64 hrs. (3,840 mins.)/month x \$4/hr. server wage <hr/> \$256 per month

Payroll Tracking and Management – Save \$100 per Month

The system tracks multiple jobs and calculates weekly payroll to accurately pay each employee for each shift.

The Old Way	With VMS Restaurant Solution	Savings
2 hrs./week	20 mins./week	6.7 hrs./month x \$15/hr. manager wage <hr/> \$100 per month

Accurate Guest-Check Calculations – Save \$240 per Month

Preconfigured prices for menu items and options minimize the risk of server errors to help ensure customers are charged accurately. \$10 per day is a conservative estimate of the average cost of server errors.

The Old Way	With VMS Restaurant Solution	Savings
Server keys in prices and taxes manually	Preconfigured prices and taxes	\$10/day x 24 days/month <hr/> \$240 per month

TOTAL SAVINGS

\$596 PER MONTH
\$7,152 PER YEAR

How Much Could You Save With the VMS Restaurant POS Solution?

Plug in your numbers, do the math and see how quickly VMS's Restaurant Solution can pay for itself—and keep paying you for years to come.

Savings Opportunity	The Math	Example		Your Restaurant	
		Savings per month	Savings per year	Savings per month	Savings per year
		4 servers/shift 2 shifts/day 6 days/week		____ servers/shift ____ shifts/day ____ days/week	
		\$4/hr. server wage \$15/hr. manager wage		\$____/hr. server wage \$____/hr. manager wage	
End-of-Shift Server Reporting	Save 20 mins./shift x ____ shifts/month x \$____/hr. server wage	\$256	\$3,072	\$_____	\$_____
Payroll Tracking and Management	Save 6.7 hrs./month x \$____/hr. manager wage	\$100	\$1,200	\$_____	\$_____
Accurate Guest-Check Calculations	Save \$ ____/day in error reduction	\$240	\$2,880	\$_____	\$_____
TOTAL		\$596	\$7,152	\$_____	\$_____
