

Focus on Your Success

We bring you a complete point-of-sale solution that offers the advantages you need to focus on making more sales, satisfying customers and improving profitability.

Please contact your sales representative to find out how you can put the big-business features of the POSVX Retail Solution to work for you, at a small-business price.

POSVX Retail Solution

Level the Competitive Playing Field

As a small business in today's fast-paced retail industry, you understand that every sale is tied to a great customer experience—and to your bottom line. Today more than ever, customers expect a level of service beyond what they can get at your larger retail competitors.

We offer an easy-to-use, dependable and affordable point-of-sale solution so that you can have the same technological advantages your bigger competition has, without losing your small-business appeal.

Integrated Solution Saves Time and Money

Designed to replace a cash register, this integrated solution projects a professional image at the point of sale. It offers a retail-durable, Intel®-powered PC, business management software and integrated payment processing.

The system can help streamline your business and guide better business decisions while positioning you for increased future profitability by allowing you to:

- Offer your customers greater payment flexibility by accepting credit, debit (PIN and signature transactions), as well as EBT and the TeleCheck® ECA® service to process paper checks electronically
- Clear transactions quickly with bar-code scanning and an easy-to-use touch-screen monitor
- Easily check prices and manage inventory, including stock location
- Prompt cashiers to offer cross-sell and up-sell opportunities, increasing your average ticket sale

Features Only Your Competitors Used to Have

POSVX Retail Solution goes well beyond the traditional cash register to bring you business-building features formerly available only to large retail chains. Use it to help manage inventory and create more loyal and profitable customer relationships with a personalized touch by:

- Tracking customer visits and purchase histories
- Offering individualized pricing and discounts for frequent or preferred customers
- Improving transaction accuracy, increasing customer confidence and driving repeat business
- Helping create custom sales programs to drive store traffic
- Efficiently managing your back office by integrating with QuickBooks Accounting
- Automatically generating inventory purchase orders based on reorder points and restock requirements
- Keeping your store top of mind with custom receipts, marketing messages and special offers

Simplicity, Speed and Support

This integrated solution is designed to be up and running quickly. Our over-the-phone training enables you to ask questions and become familiar with your system. Intuitive operation helps implement the features and benefits you need and keeps your business running smoothly so you can:

- Spend more time on your customers and less time on store operations
- Speed up checkout time to shorten customer wait time
- Get optimal performance from retail-durable hardware
- See sales activity and inventory in real time
